

The Local School Board takes its responsibilities for safeguarding and promoting the welfare of children extremely seriously. In line with Section 175 of the Education Act 2002, we work closely with families and partner agencies to ensure effective arrangements are in place to identify, assess and support children who may be at risk of harm.

We recognise that safeguarding is everyone's responsibility. All adults within our school community, including staff, volunteers, governors and visitors, play an important role in protecting children and promoting their wellbeing. The welfare of every child is always our highest priority.

We are committed to providing a caring, inclusive, safe and stimulating environment where all pupils feel valued, supported and empowered to thrive. Through our culture of vigilance and support, we promote the social, emotional, physical and moral development of every child, helping them to feel safe, happy and ready to learn.
